"TOGETHER WITH CHRIST, ACHIEVING EDUCATIONAL EXCELLENCE"

750 North Broadway
Yonkers, NY 10701

August 18, 2009

Dear Parents,

Although we may not realize it, asbestos is a common material in almost every building in our society. It is a fireproofing material; it is found in floor tiles; it is used as an acoustical material to deaden sound. Under certain conditions, however, when it is damaged, asbestos can prove to be a concern.

Recently, because of that concern, the Federal government asked every school in the country to conduct an inspection for all asbestos-containing materials.

The annual inspection of our school revealed all asbestos containing materials are in priority III condition indicating that only ongoing inspections are needed to assure proper maintenance for the future.

The Archdiocese has spent over 10 million dollars in the abatement of asbestos since 1983 (long before the current regulations), and will continue with its commitment to provide a safe environment for all our students and employees.

Sincerely,

A handwritten signature in cursive script that reads "Mrs. Bridget S. Browne".

Mrs. Bridget S. Browne

• Principal
